Work Experience

Lead App Dev Instructor:

(RED Academy, Jan 2018 - Present)

<https://redacademy.com>

Currently, I am working at the RED Academy as a Lead App Dev Instructor. As a Lead Instructor, I am teaching all the latest JavaScript libraries and frameworks like React, Meteor, React Native, Node and more. I am responsible for managing the App Dev team, maintain the curriculum for this course and course-related projects. Also, I contributed to more than 15 community project Apps (iOS/Android apps) as a project manager.

Web Dev Instructor:

(North Island College, July 2017 – Dec 2017)

<https://www.nic.bc.ca>

I worked at the North Island College as an Instructor and as a Tech. As an Instructor, I was teaching web development. As a Tech, I worked as a DevOp specialist with AWS tech, providing secure hosting for students and staff.

Education

North Island College

Web and Mobile Application Development Diploma

GPA 3.87/4

Gujarat Technological University

Information Technology Engineering

GPA 3.8/4

Achievements

- Raised more than 5000 CAD as a co-captain for Motion Ball, a not-for-profit organization that builds awareness for the Special Olympics Canada Foundation.
- Worked on more than 15 community projects (React Native apps) as a project manager.
- I wrote several blogs on Medium regarding emerging technologies. Find me on Medium, @siddharthparmar7
- Enthusiastic about Machine learning and self-studying it with projects.
- Build an NPM React / React Native library to help the dev community.
- Successfully taught and mentored more than 50 students to help them in their full-stack development career.
- Certificate of Completion from MICROSOFT RESEARCH in DAA (Data and Algorithm Analysis) course.
